Quick setup — if you've done this kind of thing before

or HTTPS SSH https://github.com/rituraj2342/git_assignment2.git 📄

Get started by [creating a new file](#) or [uploading an existing file](#). We recommend every repository include a [README](#), [LICENSE](#), and [.gitignore](#).

...or create a new repository on the command line

```
echo "# git_assignment2" >> README.md
git init
git add README.md
git commit -m "first commit"
git branch -M main
git remote add origin https://github.com/rituraj2342/git_assignment2.git
git push -u origin main
```
